

## Instruction

### High School Credit for Proficiency

#### Proficiency Credits

Subject to the limitations in this policy and State law, the Superintendent is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program.

#### Course Credit for High School Diploma

The Superintendent or designee may investigate, coordinate, and implement a program for 7<sup>th</sup> or 8<sup>th</sup> grade students to enroll in a course required for a high school diploma.

Students in grades 7 and 8 may enroll in a course required for a high school diploma when: (1) the course is offered by the high school that the elementary student would attend, (2) the student participates in the course at the location of the high school, and (3) the student's enrollment in the course would not prevent a high school student from being able to enroll.

The Superintendent or designee will coordinate with the cooperating elementary school district superintendent to implement a schedule that meets the State law requirements for providing students in grades 7 and 8 the opportunity to enroll in a course required for a high school diploma where they attend school.
